

NC and Thereafter Remembered

Bill Worstell

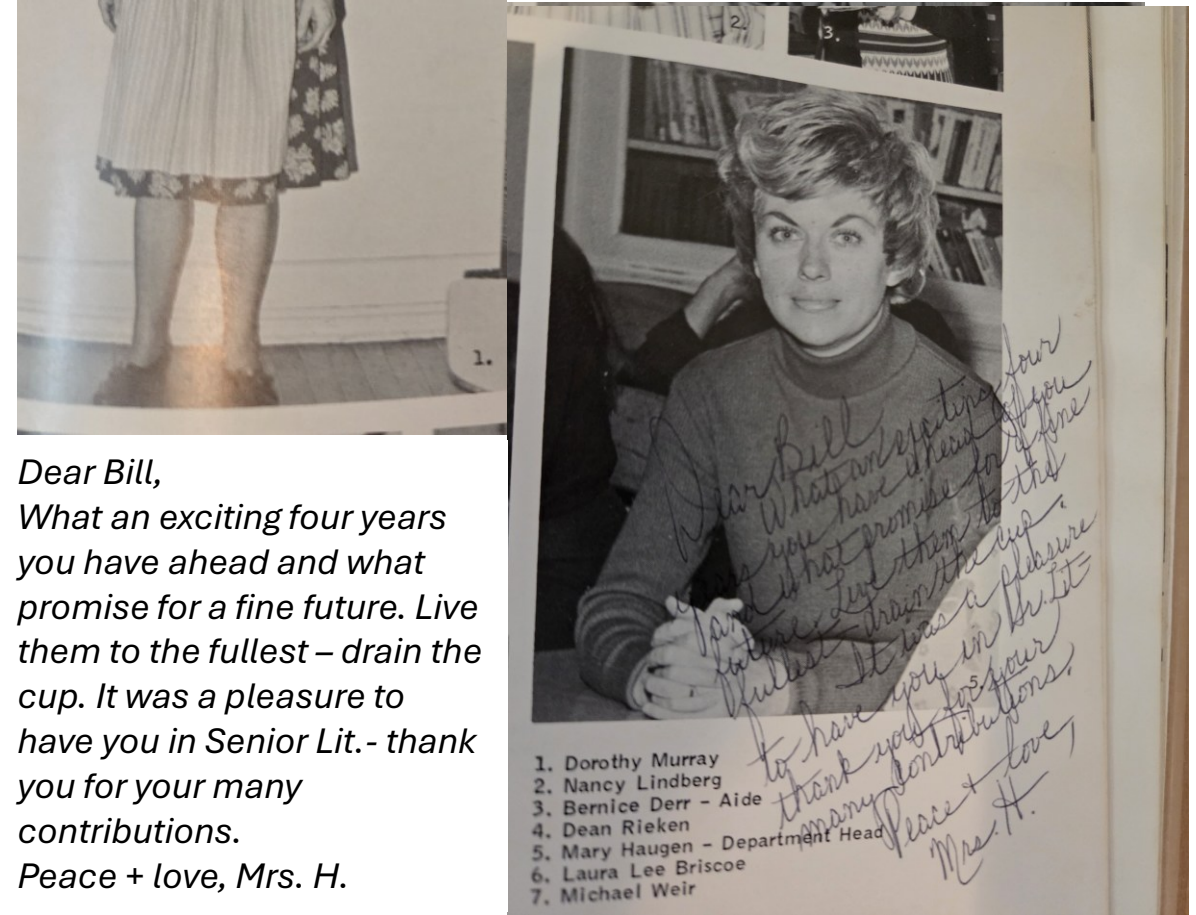

5/20/2026

Subjects to be Addressed by this Work:

- Reflection on and Celebration of our Teachers and our Community of 50 years ago, with Life Lessons Learned
- A Harvard's-Eye view – meaning my somewhat singular, particular, and biased perspective - of what's happened over the past 50 years in Science, Technology, Education, and Society, and hopes for the future.
- Pure and Applied Science as Public Goods and Collective Effort, within a (Partially) Free Democratic Culture under the Rule of Law – a Utopia.
- Sharing personal experiences and anecdotes, from Applied Mathematics and Physics applied to High-Energy Particles and to Medical Imaging, with insights I have gained from observing and appreciating many wonderful friends and communities.

Best of success to you Bill – at college and in the future. Will your sesquipedalianism come in handy sometime I hope? Laura Lee Briscoe

*Dear Bill,
What an exciting four years
you have ahead and what
promise for a fine future. Live
them to the fullest – drain the
cup. It was a pleasure to
have you in Senior Lit. - thank
you for your many
contributions.*

Peace + love, Mrs. H.

North Central High School Tamarack Life Lessons Learned, 50 Years On

1. Faculty

Value and Respect Knowledge and Educators, as Benefactors, as Models, and as Human Beings

Act to Further Public-Spirited Community and Mutual Support Networks through Public Education and Civics

2. Sports

Play and Work Hard and by the Rules – and Have Fun! – But don't get a Big Head – Think Big, but respect Reality.

Pursue Excellence, Celebrate it in Others when Found, and be a Good Friend, a Good Classmate, and a Good Citizen.

3. Productions

Act to Explore, Express, and Improve Yourself, Singly and within Groups. Cherish and Value yourself and your friends, especially in what you can accomplish together.

4. Groups

Respect and Exploit Diverse Perspectives and Positive Contributions from All. All may not contribute equally to all aspects of your effort, but the contributions of all are vital.

5. Seniors

Recognize the Common and Uncommon Traits and Virtues of All Whom you Meet; helping them to grow will help you.

Matrix Table of Contents

Inspired by the Tamarack and its Descriptions of the Competitions and Collaborations we all formed

Lesson	Award	NC	Particle Physics	Medical Imaging
Value and Respect Knowledge and Educators, as Benefactors, as Models, and as Human Beings	Favorite Educator	Mrs. Murray / NC Faculty	Larry Sulak/ IMB and KEK Teams	Fred Fahey / Society of Nuclear Imaging and Molecular Medicine
Act to Further Public-Spirited Community and Mutual Support Networks through Public Education and Civics	Institutional Lifetime Achievement	Mr. Rodkey / NC Staff	Carlo Rubbia / HPW Team and CERN	Bernie Gordon / Analogic and PDSi PET/CT and CT Manufacturing
Play and Work Hard and by the Rules – and Have Fun! – But don't get a Big Head – Think Big, but respect Reality.	Best Team	Coach Weir / Wrestling Team	Barry Barish/ MACRO Team and LIGO	Paul Domigan and Olof Johnson / PhotoDetection Systems PET Manufacturing
Pursue Excellence, Celebrate it in Others when Found, and be a Good Friend, a Good Classmate, and a Good Citizen.	Best Friends	Jim Stratton / The Avon Gang	Lee Roberts / Muon g-2 Team	Georges El-Fakhri / PET/MRI at the MGH Gordon Center
Act to Explore, Express, and Improve Yourself, Singly and within Groups	Best Performance	Coach Hughes / High School Bowl	Henry Frisch / Fermilab and LAPPD Team	Ken Gall and Townsend Zwart/ Proton Beam Cancer Therapy
Respect and Exploit Diverse Perspectives and Positive Contributions from All. All may not contribute equally to all aspects of your effort, but the contributions of all are vital.	Best Networked Expression	Mr. Luppert / Concert and Stage Bands	Valery Zawarzin and Yuri Orlov /Novosibirsk CMD-2 Team	Simon Cherry and Ramsey Badawi / Total Body PET
Recognize the Common and Uncommon Traits and Virtues of All Whom you Meet; helping them to grow will help you.	Best Application of Diversity	Honor Roll / Class and Spirit of '76	Michael Minot / LAPPD Team	Hamid Sabet / Multi-pinhole SPECT and SPECT/CT

Presented basically Chronologically over the past 50 years, with an Afterword on Future Speculations and AI

There's the Captain of our ship, Mr. Rodkey, here shown astride his majestic steed and approving the inaugural Rowdy Squad Regalia. In September, 1976 I was flying to Boston with a layover in Chicago when I discovered they had pinball machines there (that's me on the wall over there, with plenty of hair but no beard). Being skilled in the art and never tilting, I won a few bonus rounds, and missed my connecting flight. Mr. Rodkey, who had a brother in the Boston Area, had arranged for his brother to meet me at Boston Logan Airport and get me to Harvard Yard. When I did not arrive, he somehow tracked me down and got me there after dark to drop me off 1000 miles from anybody I knew. I think it was students like me who drove Mr. Rodkey to his tricycle, but he was ever up to the job.
